## GINGER VERVE

This is a metheglin style mead; with herbs or spices added. Our version uses Ohio sourced, raw wildflower honey fermented to a semi-sweet finish and infused with a blend of ginger, lavender, chamomile and vanilla. Honey aroma is followed with spice of ginger which gives way to a tea-like blend of lavender and chamomile. Ancient metheglin was thought to be medicinal, and while we can't make claims, Ginger Verve makes a relaxing tonic on its own, in hot black tea or in cocktails asking for a little more complexity.
